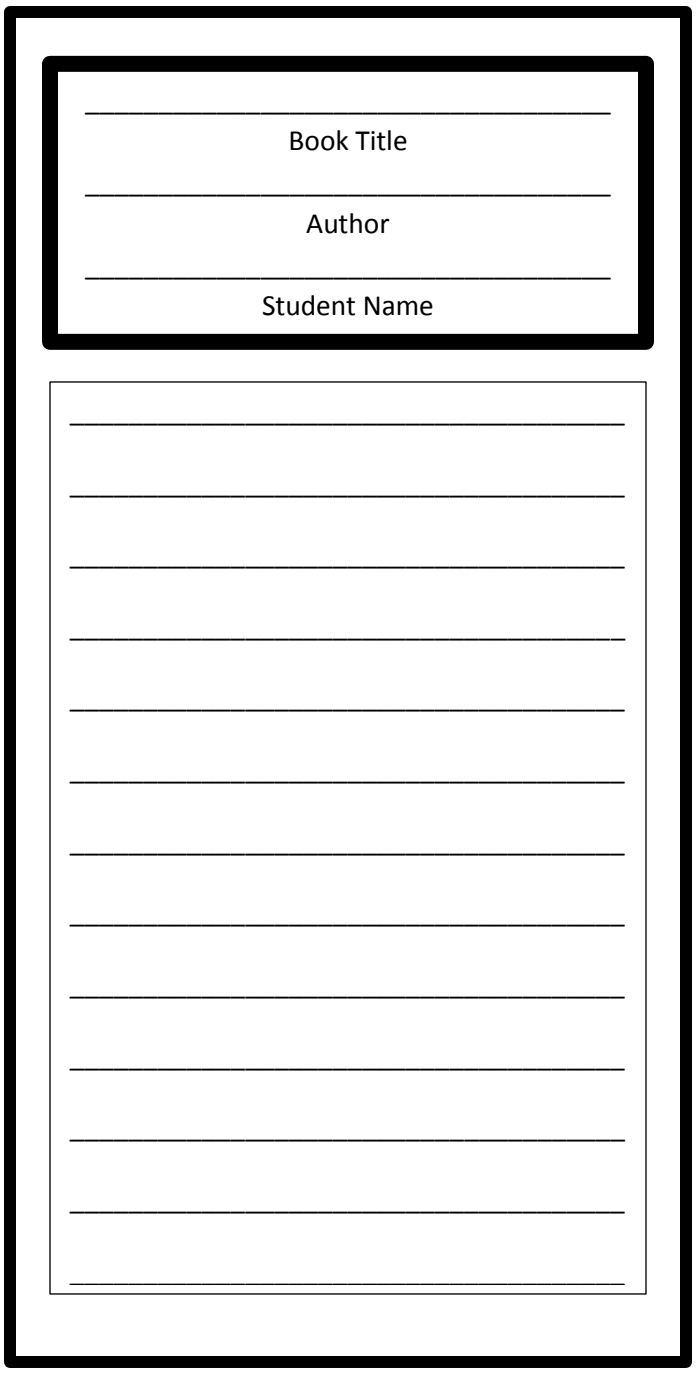
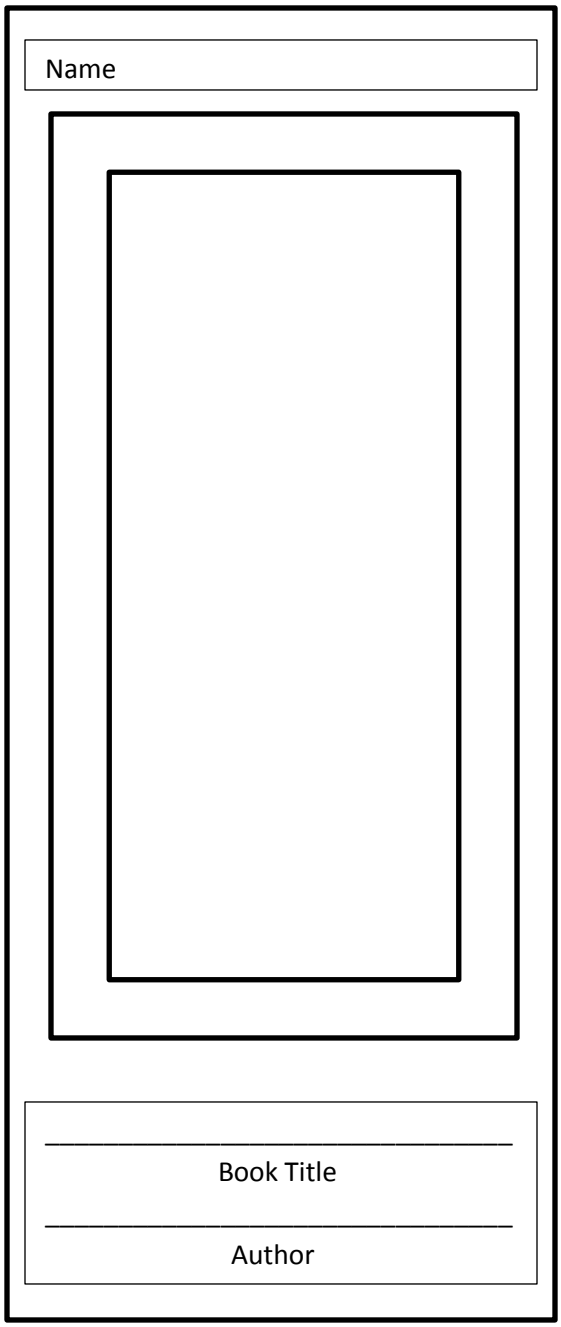
Reading Challenge 2013




Let the challenge begin! Read a great book and create a book spine to tell about the book. Then complete the templates below. Younger readers can draw a picture about what they read and older readers can write a summary. Color your book spine, cut it out and bring it to school. Completed papers will be hung on the book shelves in the lobby. The challenge will be to see if we can fill the book shelves. Make sure you include the title of the book, the author and your name. Additional templates are available on the Hatherly School website.
